

**From:** Jim Kostrava  
**To:** Microsoft ATR  
**Date:** 1/9/02 2:22pm  
**Subject:** Settlement of Microsoft Case

To: United States Department of Justice,

The purpose of this email is to encourage you to settle for once and for all the Microsoft Case.

The Foundation for Economic Education (FEE) is the oldest free-market educational organization in the world, founded by Leonard E. Read in 1946. FEE's monthly magazine, Ideas on Liberty, is the longest continuously published magazine dedicated to individual liberty in the United States. FEE is a nonprofit organization dedicated to free markets, private property, self-reliance, limited government, and the rule of law.

Since 1946 our organization has been supported entirely by private voluntary contributions. We receive no money from the government, nor would we accept money if offered. On behalf of our 4,500 supporters and the tens of thousands of people who have supported us over the past 55 years that are passionate about individual liberty, I urge you to settle this particular case. I also encourage you to limit the intrusion of government in business in general. Barriers to initiative and endless litigation are the anchors on the economy and are the greatest threat to the prosperity of all U.S. citizens.

In liberty,

James E. Kostrava, CAE  
Vice President for External Relations  
Foundation for Economic Education  
30 South Broadway  
Irvington-on-Hudson, New York 10533
